

East Elmbridge Extended Access Service

Surrey Medical Network Ltd

From Monday 17th September, you may be offered an appointment outside of normal working hours.

These appointments will be at the Emberbrook Community Centre for Health in Thames Ditton.

Our Extended Access Appointments
will be offered on the same basis as
our regular appointments.

If you need to cancel your appointment, you must contact your own Practice before 5pm so that it can be offered to other patients who might need it.

Extended Access Clinics are designed to meet the needs of people who cannot normally attend the Practice in the working day.

This service is provided by Surrey Medical Network on behalf of the East Elmbridge Practices.

Our reception team can answer any questions you might have.
